Attachment 5: Comparison of our 39 EPA list with the EPA list of Wisman-Zwarter et al.

Our EPA list is not transferable one-by-one to the list of Wisman-Zwarter et al. Nevertheless, we detected a 73.3 %. agreement with our list of EPAs. 26.6% of the list of Wisman-Zwarter et al. is not included in our EPAs due to the fact that we have excluded EPAs concerning intensive care medicine and advanced pain management.

A detailed comparison of the both EPA lists is provided in the *table below*.

Comparison of EPAs from Wisman-Zwarter et al. and our EPAs

EPAs of Wisman-Zwarter et al.	EPAs of Moll-Khosrawi et al.
Cardiopulmonary resuscitation of the adult	Management of in-house emergencies
patient	
Cardiopulmonary resuscitation of the	Management of in-house emergencies
paediatric patient	
Epidural and spinal anaesthesia	Indication, consideration and performance
	of spinal and epidural anaesthesia
Interviewing the patient	Performing a premedication round
	(preoperative evaluation) including patient
	education
Management of acute pain	Providing postoperative pain management
Management of chronic pain	Providing postoperative pain management
Management of massive blood loss	Haemodynamic management of major
	blood loss
Management of oncological pain and	Not included specifically *
palliative care	
Management of the difficult airway	Providing general anaesthesia including
	airway management in patients with
	anticipated airway

Attachment 5 to: Moll-Khosrawi P, Ganzhorn A, Zöllner C, Schulte-Uentrop L. *Development and validation of a postgraduate anaesthesiology core curriculum based on Entrustable Professional Activities: a Delphi study.* GMS J Med Educ. 2020;37(5):Doc52. DOI: 10.3205/zma001345

	Management of the unanticipated difficult
	airway
Obtain central venous access	Specified as OPA
Perioperative anaesthetic care for	Providing anaesthetic care for extensive
abdominal vascular surgery	open abdominal surgery
Perioperative anaesthetic care for ASA I-II	Subsummed in following EPAs:
patients undergoing high risk surgery	Providing perioperative care for patients
	ASA I-III
Perioperative anaesthetic care for ASA III	Providing perioperative care for patients
patients undergoing high risk surgery	ASA > III
Perioperative anaesthetic care for ASA I-II	
patients undergoing low to medium risk	
surgery	
Perioperative anaesthetic care for ASA III	
patients undergoing low to medium risk	
surgery	
Perioperative anaesthetic care for ASA IV	
patients undergoing low to medium risk	
surgery	
Perioperative anaesthetic care for ASA IV-V	
patients undergoing high risk surgery	
Perioperative anaesthetic care for caesarean	Indication of anaesthetic technique and
section	performance of medullary or general
	anaesthesia for regular and emergency
	caesarean section
Perioperative anaesthetic care for children	Administer general anaesthesia in pediatric
between one and four years old	patients under the age of five
Perioperative anaesthetic care for children	Administer general anaesthesia in pediatric
over four years of age	patients over the age of five

Attachment 5 to: Moll-Khosrawi P, Ganzhorn A, Zöllner C, Schulte-Uentrop L. *Development and validation of a postgraduate anaesthesiology core curriculum based on Entrustable Professional Activities: a Delphi study.* GMS J Med Educ. 2020;37(5):Doc52. DOI: 10.3205/zma001345

Perioperative anaesthetic care for coronary Providing perioperative care for patients artery bypass grafting and valve surgery undergoing cardiothoracic surgery Perioperative anaesthetic care for day care Not included specifically* Perioperative anaesthetic care for infants up Administer general anaesthesia in neonatal patients Perioperative anaesthetic care for infants up Administer general anaesthesia in neonatal patients Perioperative anaesthetic care for infants up Administer general anaesthesia in neonatal patients Perioperative anaesthetic care for infants up Administer general anaesthesia in neonatal patients Perioperative anaesthetic care for providing anaesthetic care for small laparoscopic surgery in day care Providing anaesthetic care for large laparoscopic surgery Iday care is not included specifically Not included specifically Perioperative anaesthetic care for non- Not included specifically* Perioperative anaesthetic care for prosthetic Not included specifically*		
Perioperative anaesthetic care for day care surgery Not included specifically* Perioperative anaesthetic care for head and neck surgery, excluding neurosurgery and vascular surgery Not included specifically* Perioperative anaesthetic care for infants up to the age of one year Administer general anaesthesia in neonatal patients Perioperative anaesthetic care for infants up to the age of one year Providing anaesthetic care for small laparoscopic surgery Perioperative anaesthetic care for laparoscopic surgery in day care Providing anaesthetic care for large laparoscopic surgery Perioperative anaesthetic care for laryngotracheobronchoscopy in adults and children Not included specifically* Perioperative anaesthetic care for prosthetic and osteosynthetic surgery of the knee or hip Not included specifically* Perioperative anaesthetic care for pulmonary surgery Not included specifically* Perioperative anaesthetic care for providing anaesthetic care for prosthetic and osteosynthetic surgery of the knee or hip Not included specifically* Perioperative anaesthetic care for pulmonary surgery Providing anaesthetic care for thoracic surgery (including lung seperation) with normal lung function	Perioperative anaesthetic care for coronary	Providing perioperative care for patients
surgery Perioperative anaesthetic care for head and neck surgery, excluding neurosurgery and vascular surgery Not included specifically* Perioperative anaesthetic care for infants up to the age of one year Administer general anaesthetic care for small patients Perioperative anaesthetic care for infants up to the age of one year Providing anaesthetic care for small laparoscopic surgery Perioperative anaesthetic care for infants up to the age of one year Providing anaesthetic care for small laparoscopic surgery Perioperative anaesthetic care for infants up to the age of one year Providing anaesthetic care for large laparoscopic surgery Perioperative anaesthetic care for infants up to the age of one year Providing anaesthetic care for large laparoscopic surgery Perioperative anaesthetic care for non-vascular abdominal surgery Not included specifically* Perioperative anaesthetic care for prosthetic and osteosynthetic surgery of the knee or hip Not included specifically* Perioperative anaesthetic care for prosthetic surgery (including lung seperation) with normal lung function Providing anaesthetic care for thoracic surgery (including lung seperation) with	artery bypass grafting and valve surgery	undergoing cardiothoracic surgery
Perioperative anaesthetic care for head and neck surgery, excluding neurosurgery and vascular surgery Perioperative anaesthetic care for infants up to the age of one year Perioperative anaesthetic care for laparoscopic surgery in day care Perioperative anaesthetic care for laparoscopic surgery in day care Perioperative anaesthetic care for laparoscopic surgery Providing anaesthetic care for large laparoscopic surgery (day care is not included specifically) Perioperative anaesthetic care for non- vascular abdominal surgery Perioperative anaesthetic care for non- vascular surgery Perioperative anaesthetic care for prosthetic and osteosynthetic surgery of the knee or hip Perioperative anaesthetic care for prosthetic pulmonary surgery Not included specifically* Perioperative anaesthetic care for prosthetic surgery (including lung seperation) with normal lung function Providing anaesthetic care for thoracic surgery (including lung seperation) with	Perioperative anaesthetic care for day care	Not included specifically*
neck surgery, excluding neurosurgery and vascular surgery Perioperative anaesthetic care for infants up to the age of one year Perioperative anaesthetic care for for laparoscopic surgery in day care Perioperative anaesthetic care for laparoscopic surgery in day care Perioperative anaesthetic care for laryngotracheobronchoscopy in adults and children Perioperative anaesthetic care for non- vascular abdominal surgery Perioperative anaesthetic care for prosthetic and osteosynthetic surgery of the knee or hip Perioperative anaesthetic care for prosthetic surgery (included specifically* Perioperative anaesthetic care for prosthetic and osteosynthetic surgery of the knee or hip Perioperative anaesthetic care for prosthetic surgery (including lung seperation) with normal lung function Providing anaesthetic care for thoracic surgery (including lung seperation) with	surgery	
vascular surgery Administer general anaesthesia in neonatal patients Perioperative anaesthetic care for infants up to the age of one year Administer general anaesthesia in neonatal patients Perioperative anaesthetic care for general anaesthesic care for small laparoscopic surgery in day care Providing anaesthetic care for large laparoscopic surgery Perioperative anaesthetic care for large laparoscopic surgery (day care is not included specifically) Providing anaesthetic care for large laparoscopic surgery (day care is not included specifically) Perioperative anaesthetic care for non-vascular abdominal surgery Not included specifically* Perioperative anaesthetic care for prosthetic and osteosynthetic surgery of the knee or hip Not included specifically* Perioperative anaesthetic care for prosthetic pulmonary surgery Providing anaesthetic care for thoracic surgery (including lung seperation) with normal lung function Providing anaesthetic care for thoracic surgery (including lung seperation) with	Perioperative anaesthetic care for head and	Not included specifically*

Perioperative anaesthetic care for situations	Not included specifically*
of a shared airway with the surgical team	
Perioperative anaesthetic care for vascular	Not included specifically*
surgery of the Carotid artery	
Peripartum pain management	Indication of anaesthetic technique and
	performance of medullary or general
	anaesthesia for regular and emergency
	caesarean section
	(Not specifically, former EPA "Providing
	epidural anaesthesia during labour", was
	merged into the above mentioned)
Peripheral nerve block	Indication and performance of a regional
	anaesthesia technique
Post-acute and long-term intensive care	Not included specifically*
Postoperative care during the recovery	Providing postoperative care in the recovery
period	room
Postoperative intensive care after (cardiac)	Providing postoperative care in the recovery
surgery in the post-anaesthesia care unit	room
(PACU)	
Preoperative assessment	Performing a premedication round
	(preoperative evaluation) including patient
	education
Resuscitation and admission of the adult	Performing in-house transfers of critically ill
patient in need of intensive care	patients
	Management of in-house emergencies
	Providing perioperative anaesthetic and
	emergency care for critically injured and ill
	patients

Resuscitation and treatment of sepsis in the	Management of in-house emergencies
intensive care unit	
Resuscitation of the acutely ill paediatric	Management of in-house emergencies
patient	
Resuscitation of the adult multiple trauma	Providing anaesthetic care and emergency
patient in the Emergency Room	management for critically injured and ill
	patients in the shock room
	Management of in-house emergencies
Science and evidence based medicine	Not included specifically*
Sedation for medical interventions and	Indication and performance of
examinations	analgosedation
Ventilation on the intensive care unit	Not included specifically*

*These EPAs were not mentioned specifically in our list of EPAs, therefore they were not included into the calculation of agreement.
