

Attachment 2: Evaluation based on the STIKO recommendations

Conceptualizations of the evaluations of the vaccination cards:

"Tetanus, diphtheria, pertussis basic immunization complete" = received at least 3 vaccinations

"Current tetanus, diphtheria, pertussis vaccination" = vaccination not longer than 10 years ago

"Poliomyelitis basic immunization complete" = received at least 3 vaccinations

"Measles, mumps, rubella basic immunization complete" = received at least 2 vaccinations

"Hepatitis B basic immunization complete" = received at least 3 vaccinations

"Hepatitis A basic immunization complete" = received at least 2 vaccinations, or 3 x combination vaccination

"Influenza vaccination current" = a vaccination valid for the current season is available
